CoNE person

- Provide author-id and researcher portofolio capability in eSciDoc coreservice.
- Our institutional personnel DB can be used as a source for CoNE-Person.
 - And then we will use CoNE Person DB as our institutional researcher portofolio.
- Via CoNE API, we can link or export the researcher profiles into other pages or services on the Web.
 - Researcher's homepage
 - Researcher name resolver
 - Authority file from national/international bibliographic utility.
 - ResearcherID.com (launched by Thomson Reuters)

Recent experience with ResearcherID.com

- ResearcherID.com, launched 2008 by Thomson Reuters
- Web Upload Services
 - Profile
 - Publication
- Workflow:
 1. Institutional administrator can upload their researcher information directly.
 2. If there is no account associated with the researcher, Web Services automatically create an account.
 3. Publication list are appeared as “Suggested publication”
 4. Researcher himself/herself can confirm the list and makes it available to the public.
